Drawing from the synergy of expert touch, organic natural elements and rejuvenating treatments, Fairmont Spa & Wellness specializes in the arts of quieting the mind, soothing the body and emboldening the spirit.

BETWEEN TWO WORLDS

Rooted in the healing traditions of the past and the regenerative science of the present, the award-winning menu of services at Fairmont Spa & Wellness is designed to calm, balance, and naturally restore health and beauty from the inside out.

Trained in the art and science of wellness, Fairmont Spa & Wellness's ASTECC-certified practitioners employ a complete suite of treatments, from hydrotherapy and soft tissue therapies to Dr. Vodder's manual lymph drainage (MLD) and biochemical elements. Their mix of compassion and technical expertise turns any spa visit into an unforgettable experience.

We understand that stress is one of the primary causes of a number of common disorders, including anxiety, fatigue, digestive issues, premature aging and weight fluctuation. Accordingly, Fairmont Spa & Wellness specializes in noninvasive, holistic treatments that naturally interrupt negative stress patterns while restoring balance and homeostasis.

These subtle, all-natural massages, wraps and facials consistently create calm and serenity for mind, body and spirit, imparting a sense of deep relaxation before returning to the world outside.
